

What's Your Experience Interpreting in Genetic Counseling Sessions?

A student from Thomas Jefferson Human Genetics & Genetic Counseling Master's Program is seeking *ASL Interpreters who have translated in genetic counseling sessions* to participate in a research study.

How Can You Participate?

Participation in this research requires one 30 to 45-minute telephone interview at a time of your choosing.

You will be asked questions about your experience as an ASL interpreter, **specifically within genetic counseling sessions**, and any suggestions you may have to improve interpretation in these sessions.

*****All participants are eligible to enter a raffle to win a \$50 Amazon gift card*****

Participating in this research is voluntary. To participate or to learn more, contact Kara Morrison at kxm568@jefferson.edu or 315-939-0076

Thank you for your support!
